Appendix A Environmental Enhancement / Enrichment

This appendix must be appended to each protocol involving the use of nonhuman primates.

Nonhuman primates must have their physical environments enhanced/enriched by providing means of expressing non-injurious, species-typical activities. The *Animal Welfare Act* (9 CFR 3.81) states that research facilities "must develop, document, and follow an appropriate plan for environment enhancement adequate to promote the psychological well-being of nonhuman primates".

1. Are there any enrichment forms/techniques that are included in this protocol?

2. Describe the above techniques?

The Laboratory Animal Facilities provides an active plan of environmental enrichment that includes cage complexities (tunnels, barrels), social interaction, fruit/vegetable supplements, foraging, and manipulative devices/toys. Unless otherwise, specified, the LAF will provide all available forms of enrichment.

3. Are there any forms of enrichment/enhancement that should not be used in this study?

☐ YES ☐ NO

4. If YES, provide complete justification for this exemption?
